CA PDSMAN PDS Library Management 7.7
CA RS 1512 - PTF RO86071 Details

Release	Service	Details
7.7	RO86071	<p>RO86071 M.C.S. ENTRIES = ++PTF (RO86071)</p> <p>MEMBER UPDATE BY ISPF MAY NOT RESET EXPIRATION BASE DATE</p> <p>PROBLEM DESCRIPTION: The PDSMAN Expiration Base Date may not be reset correctly when a member is edited using ISPF. This can result in longer than desired retention periods for members updated in this way. This problem occurs if a member has an expiration base date that is the same as the date on which it is updated. This can occur when a member is copied into a library that has a matching \$UPDATE rule with EBDRESET=Y and later updated on the same day.</p> <p>SYMPTOMS: PDSM07 or other member archiving and recovery utility programs report excessively large retention periods for some members.</p> <p>IMPACT: Archiving and recovery facility users may be impacted.</p> <p>CIRCUMVENTION: None</p> <p>PRODUCTS AFFECTED: CA PDSMAN PDS Library Management r7.7</p> <p>Related Problem: PDSM 1037</p> <p>Copyright (C) 2015 CA.
